

NEU-365P-385P-Spring-2024

Programming and Data Analysis for Modern Neuroscience

Course info

- [Course info](#)
- [Discussion board](#)
- [Syllabus](#)

Setup

- [Setup your Python environment](#)
- [Keep up-to-date with the course GitHub repository](#)

Python

- [Programming rules of thumb](#)
- [Python environment overview](#)
- [Python basics](#)

Working with data

- [Python data toolkit](#)
- [Data visualization](#)

Dealing with uncertainty

- [Statistical inference](#)

Time series and images

- [Sequence and convolution](#)

Modeling data

- [Modeling data](#)
- [Models explored in this course](#)
